

Pleae do not weaken the current NJ 'Do Not Call List'. For the first time in a long time, we can now have dinner together as a family in peace and quiet. It is a pleasure not to be disturbed on a Saturday or Sunday morning by a solicitor. We have so little time together as a family due to busy schedules that our dinner time and weekend time is often spoiled by telelmarketers. I would prefer to have a 'Call List' and be given the chance to be placed on a call list from someone I have done business with rather than automatically be placed on a List and then have to struggle to get our name off of the list! Thank you Mr. Codey for standing behind the 'Do Not Call List' and please do not change the current law.
